III. Read the following passage and answer the questions in a sentence *or* two :

To live in harmony with oneself and the environment is the wish of every human. However, in modern times greater physical and emotional demands are constantly placed upon many areas of life. More and more people suffer from physical and mental tension such as stress, anxiety, insomnia, and there is an imbalance in physical activity and proper exercise. This is why methods and techniques for the attainment and improvement of health, as well as physical, mental and spiritual harmony, are of great importance, and Yoga meets this requirement.

The word "Yoga" originates from Sanskrit and means "to join, to unite". Yoga exercises have a holistic effect and bring body, mind, consciousness and soul into a balance. In this way Yoga assists us in coping with everyday demands, problems and worries. Yoga helps to develop a greater understanding of our self, the purpose of life and our relationship with God.

On the spiritual path, Yoga leads us to supreme knowledge and eternal bliss in the union of the individual Self with the universal Self. Yoga is that supreme, cosmic principle. It is the light of life, the universal creative consciousness that is always awake and never sleeps; that always was, always is, and always will be.

Many thousands of years ago in India, Rishis explored nature and the cosmos in their meditations. They discovered the laws of the material and spiritual realms and gained an insight into the connections within the universe. They investigated the cosmic laws, the laws of nature and the elements, life on earth and the powers and energies at work in the universe -both in the external world and on a spiritual level. The unity of matter and energy, the origin of the universe and the effects of the elementary powers have been described and explained in the Vedas. Much of this knowledge has been rediscovered and confirmed by modern science.

1 Suggest a suitable title for this passage and state why you have chosen the title.

2 What is the wish of every human ?

3 How does Yoga help us ?

4 Yoga exercises have a holistic effect. Why ?

5 How does Yoga meet the requirement of the modern times ?

(10 marks)

IV. Summarise the following passage into one-third of its original length :

A keen sense of humour is the hall mark of culture. When a person can crack a joke on himself, he raises himself at once in the estimation of his friends. There are people who can throw jokes at others, but never take one thrown against themselves. This one way traffic is not really a high sense of good humour. It is the essence of humour that there should be give and takes in the process. Good humour is often the test of tolerance. A fanatic is incapable of good humour. He tears others to pieces fearing getting himself torn all the time. Good humour defeats itself if there is malice in it, or is indulged into hurt others. A joke should never hurt, otherwise, it is no joke at all. A joke should make the person who makes it and the person who has to take it, laugh together. That is why tolerance and culture are the sources of every good joke.
